

# 4-5 NOV 2019 BIOMARINE CONVENTION

Hotel Miragem  
Cascais, Portugal

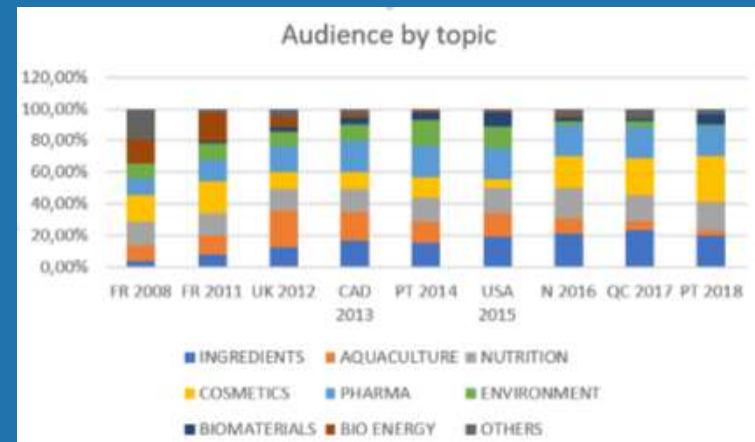

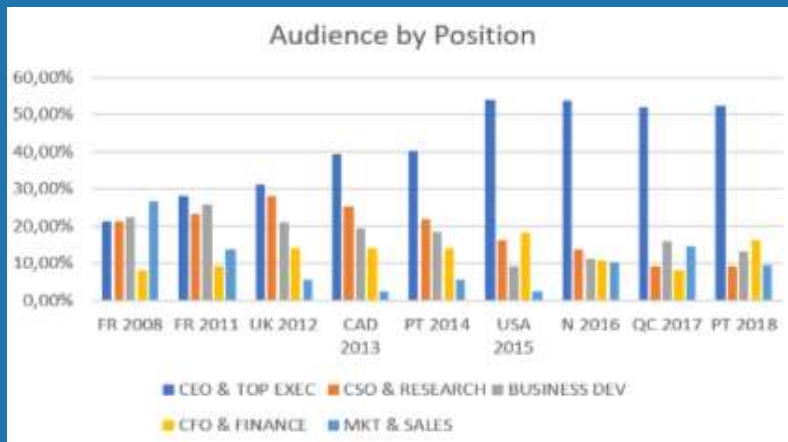

# What is BioMarine?

BioMarine is an industry & investment platform, a global accelerator where you literally run all day long, interacting with people from all over the world, chasing the best opportunities, the investor who will fund your project, and / or the government that will support your development. Our core activity is to foster business opportunities and contacts between top executives. It is a unique CEOs and key stakeholder's platform dedicated to marine bio resources. With our annual platform, BioMarine can quickly identify and the select potential companies to optimize deal flow in relation with our future blue fund.

BioMarine is structured in strict accordance with the 'three-thirds' principle: namely, Industry, Science and Investors. This principle aims to:

- Foster business opportunities by facilitating international collaborative work,
- Turn innovation and applied research into value creation
- Facilitate the implementation of existing opportunities to benefit both consumers and civil society

# 2019 Focus

The blue Bio Industry as a service provider for the following Industry segments: alternative protein, cosmetics, personal care, stationery, distribution, packaging, biomaterials, construction, clothing, waste & remediation and aerospace

Discussions will focus on 3 key topics

- Blue Bio Plastics
- Blue Investments
- The sustainable production of biomass for cosmetics and pharmaceuticals

# BIOMARINE
