

- Fredric Nilsson - Policy area coordinator regarding Fishery and Aquaculture
- **PA Bioeconomy** actions concentrate on pursuing the bioeconomy actually and practically for example by improving policy coherence and policy learning and by engaging the private sector
- **PA Bioeconomy** serves as a body where local, regional, macro regional and international organisations (private and public) become involved, to horizontally improve and widen the impact of different strategic frameworks
- **BeUBio** - Baltic Sea Region Youth for SDGs and Circular Bioeconomy
- We have a close collaboration with The **SUBMARINER Network**.
